EDUCATION ASSURANCE PLAN

2021-2024

The Education Assurance Plan for Holy Family Catholic Regional Division commencing September 1, 2020, was prepared under the direction of the Board of Trustees in accordance with the responsibilities under the *Education Act* and the *Fiscal Planning and Transparency Act*. This plan was developed in the context of the provincial government's business and fiscal plans. The Board has used its performance results to develop the plan and is committed to implementing the strategies contained within the plan to improve student learning and results.

The Board approved the Education Assurance Plan for the 2020-2021 school year on November 27, 2020.

BACKGROUND

In Alberta's K-12 education system, school authorities are accountable organizations. The Department of Education allocates funds to school authorities so they may fulfill their delegated responsibilities of providing education programs for Alberta's K-12 students. This practice creates an accountability relationship between the department and the school authorities which requires transparency and the obligation to answer for, and publicly report on the spending of public funds and results achieved by the accountable organization through the discharge of responsibilities. This accountability relationship is established in legislation and regulation. In addition to the department, school authorities are also responsible for providing assurance to their local stakeholders and the public that they are fulfilling their responsibilities and students are successful. This assurance arises from the combination of policies, processes, actions and evidence that help build public confidence in the education system. It is achieved through relationship building, engagement with education partners and by creating and sustaining a culture of continuous improvement and collective responsibility. (Alberta Education Funding Manual for School Authorities 2020/21 School Year; pg 14)

Continuous Improvement Cycle (Alberta Education Funding Manual for School Authorities 2020/21 School Year; page 20)

Key Enabling Processes for Continuous Improvement

Key enabling processes that must be part of all phases of a continuous improvement cycle include:

Evidence-informed decision-making: In a continuous improvement cycle, participants are persistently attentive to gathering ongoing, triangulated evidence to inform next steps.

Engagement: Effective engagement processes rely on education partners working together for the purposes of bringing about positive change, with all partners recognizing that the nature of the engagement will vary according to the needs of the participants.

Learning and Capacity Building: In assurance, reflection on learning is critical. Because the provision of assurance is a dynamic process, the opportunities for building capacity for change and improvement must be ongoing.

For the purposes of this document, a domain is an area of activity where education partners have specific responsibilities that they are accountable for and provide assurance about. Fundamentally, assurance is reflected in what the public understands, perceives and knows about student growth and achievement, where the quality of the daily interaction between teacher and student is paramount. Assuring the public that the education system is successfully supporting student growth and achievement requires engagement and thoughtful action across all five domains.

Student growth and achievement is the primary purpose of the education system and is the core outcome domain for the assurance framework. The domains of Teaching and Learning, Learning Supports and Governance support and enable Student Growth and Achievement. Local and Societal Context while a separate domain, operates across and is integrated into the others.

Overriding Domain: Faith Permeation

Goal is to ensure faith permeation opportunities for growth and learning for all students, staff, and board members. It is a priority to provide quality Catholic education, build catholic citizens, strive for excellence of individual God-given talents and model Christ in a fair, equal and permeated learning environment.
